

# THERMO GO 20-40

Portable air heater

- High quality and powerful Webasto air heater made in Germany;
- Simple setting of the desired temperature;
- Low fuel consumption (approx. 0.5 l/h diesel);
- Contains high quality European components;
- High autonomy with about 30 hours of operation on a fully charged battery (Thermo Go 20);
- Optional 220/12 v inverter;
- Optional redundant power supply (12V/4Ah);
- Compact, robust and light NATO standard case;
- Low noise level.

The Thermo Go 20-40 is highly mobile and easily portable air heating system offering greater comfort, safety and maximum heat output. It heats up tents, sheds, shelters and other constructions quickly and efficiently. The new control system reduces energy consumption and noise significantly. The Thermo Go model is a cost-effective retrofit solution which needs minimum setup time.

The heater requires a 12V (DC) or 220V (AC) (optional) power supply to operate. The Thermo Go 20-40 has its own independent fuel supply system using an integrated 8.0 l fuel tank. It is possible to extend the exhaust system e.g. when the heater is installed indoors. It has an integrated emergency power supply system to ensure uninterrupted shutdown of the heater in the event of an unplanned main power failure, preventing heater failure.

Portable air heater

## Technical specifications

		Thermo go 20	Thermo go 40
Fuel		diesel	diesel
Heating power (nominal / boost)	kW	0.9-2.0	1.5 - 3.5 /4.0*
Fuel consumption (nominal / boost)	l/h	0.12 - 0.24	0.18 - 0.43 /0.49
Voltage	V	12	12
Power consumption (nominal / boost mode)	W	15 - 30	15-40 / 55
Heating air volume flow against 0.5 mbar (nominal/boost)	m³/h	max 93	max 132 /140
Operating temperature range	°C	-40 to +40	
Overall dimensions (L x W x H)	mm	565 x 315 x 429	
Weight with empty fuel tank	kg	10.7	14.0
Fuel tank capacity	l	8.0	

\* increased heat output ("boost") possible for

## Control element

Digital programmable temperature regulator

## Options

- 220/12 V inverter
- Back-up battery
- Shoulder strap
- Air Distribution Duct
- External temperature sensor

## Dimensions
